SVQ

**Everything
under one roof**

Service • Fixtures • Quality

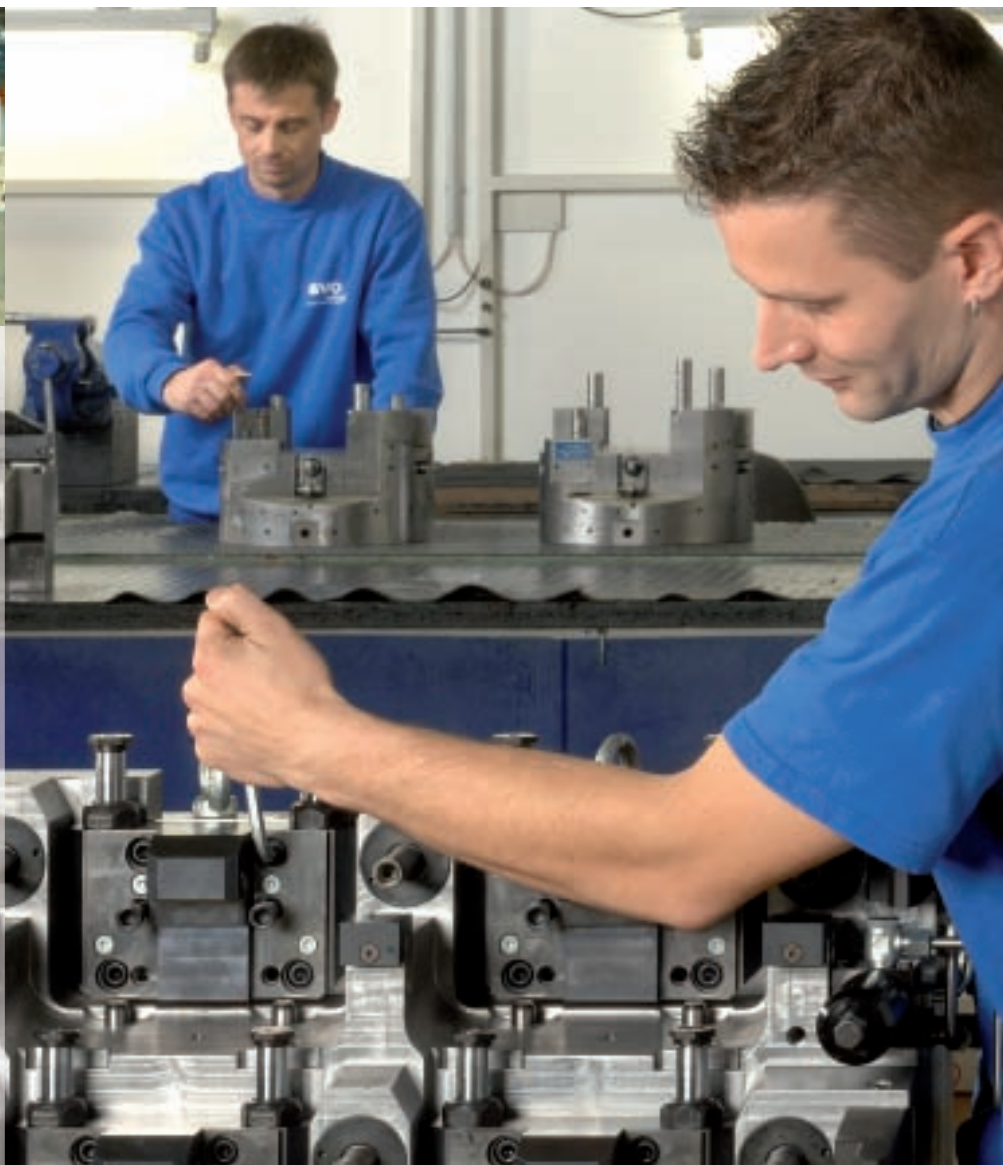

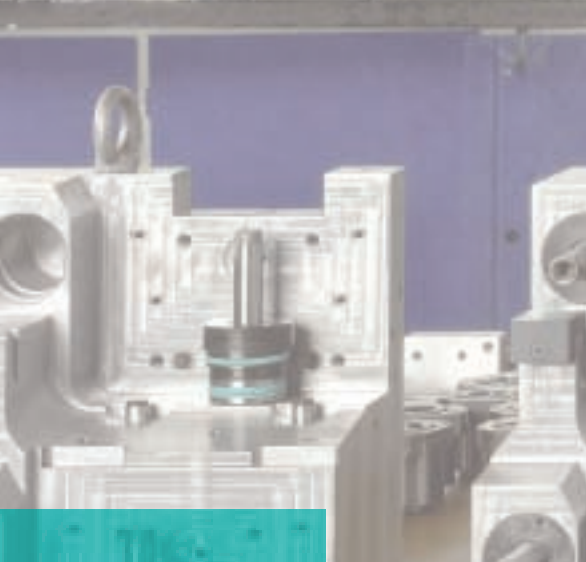

Profile

SVQ is an internationally-active company domiciled in Lebach (Saarland), Germany, with a German subsidiary in Erkrath (North Rhine-Westphalia).

The company's principal activities include the construction, manufacture and installation of fixtures, together with services of every description up to the complete remodelling of machine tools.

Together with SVQ Slovakia and SVQ China, and our affiliates Spicher Automation and Siepmann, SVQ has at its disposal a comprehensive range of expertise and modern production facilities in Germany, Eastern Europe and Asia.

This is how we can guarantee integrated solutions that are appealing both on a technical level and economically, anywhere in the world and all under one roof.

Services & products

- Engineering and manufacturing of all types for metal cutting
- Engineering and manufacture of welding and body-in-white fixtures
- Modernisation of machine tools
- Remodelling of machine tools
- Maintenance contracts
- Repairs to machine tools of every kind
- Job order production

Complete solutions

Our collaboration with our plants outside Germany, and with our affiliate Spicher Automation, a noted manufacturer of interlinking and loading facilities, has resulted in a unique package combining engineering expertise and system integration. Together with a high level of experience and operational readiness, the result is turnkey solutions, produced around the world and under one roof and meeting every requirement in respect of conception, engineering, production, start-up and after-sales service.
